Brandt 8672

Banknote counter

The Brandt 8672 is a fast and reliable desktop banknote counter, that will help save your business valuable time and money. Ideal for environments where high volumes of notes are processed, it delivers currency specific authentication of banknotes at speeds of up to 1,750 notes per minute and also counts other documents such as cheques.

The Brandt 8672 has a choice of three throughput speeds and adapts automatically to individual note characteristics enabling smooth and constant counting.

Multiple functionality

Rogue note detection by height (SD) is standard on all models. With currency-specific counterfeit detection options and 3 levels of totals, the Brandt 8672 is suitable for use in cash centres and large retail and commercial deposit centres.

Easy to use

The large LCD display and touch pad places the control of the machine at the operator's fingertips. The wide document loading and removal trays ensure fast, efficient processing.

Range of options

Models are available with the following counterfeit detection options:

- UV** – checks banknote paper for fluorescence
- MAG** – measures the presence of magnetic ink
- MTD** – checks for the presence of metal thread

Intelligent

An RS232 serial port fitted as standard provides an easy interface to a printer, PC or other device for reconciliation.

Speed range	600 – 1750 notes per minute
Document size range	51 × 102 mm to 108 × 241 mm
Capacity	Feed hopper: 1000 notes Output stacker: 200 notes
Display	LCD
Connectivity	RS232 for PC
Dimensions (H × W × D)	381 mm × 391 mm × 267 mm
Weight	10.2 kg
Power supply	100 – 264V AC, 50/60Hz
Power consumption	87W
Manufacturing standards and approvals	CE
Detector options	Magnetic counterfeit assist (MAG) UV detection aid Metal thread detection (MTD)
