

### THE EASIEST, QUICKEST AND SAFEST SELF-SERVICE DEPOSIT SOLUTION

neoFID is the fastest automated bundled cash and cheque deposit machine for rapid transaction at bank branch.

The system provides great benefits and saves lot of time both for financial institutions and their customers. Using neoFID, banks can increase efficiency of their self-service channel while decreasing post-processing operations at the branch level.

CTS' exclusive technology guarantees high performance in paper processing and best data security for cash and cheque transaction, from deposit to crediting the customer's account.

### BANK BRANCH

Break the bottleneck while providing commercial customers with fast, efficient in-branch deposits.

Small retailers and merchants can significantly benefit from a unique self-service machine that reduces transaction time while increasing deposit security compared to traditional slow teller deposits.

# The neoFID at a glance

neoFID is equipped with the CTS long edge validation module that exceeds existing competitive short edge technology in terms of SPEED, ACCURACY and ERGONOMIC INSERTION of documents.

HIGH SPEED

EFFICIENT

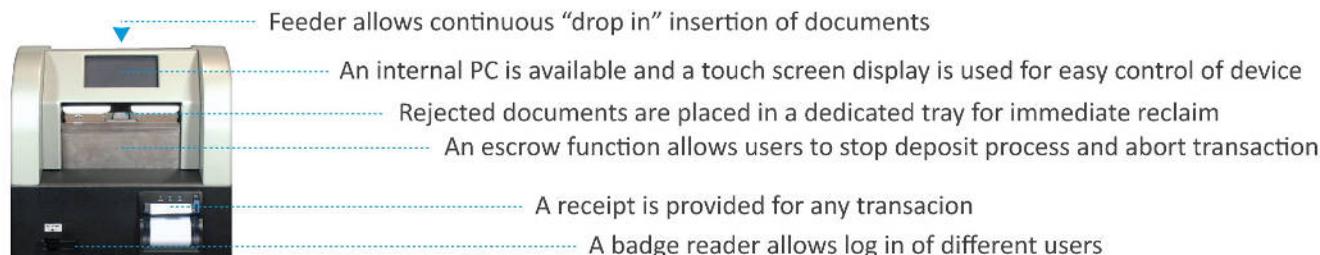

MULTI USER

DIFFERENT DOCUMENTS

DIFFERENT DEPOSIT CONFIGURATIONS

Feeder allows continuous "drop in" insertion of documents

An internal PC is available and a touch screen display is used for easy control of device

Rejected documents are placed in a dedicated tray for immediate reclaim

An escrow function allows users to stop deposit process and abort transaction

A receipt is provided for any transaction

A badge reader allows log in of different users

neoFID is available in two different deposit configuration models to meet different market needs: AUTO-SEALING PLASTIC BAG and METAL CASSETTE

**neoFID**

## SPECIFICATIONS

### Standard Features

Feeder capacity	300 docs * (continuous "drop in" insertion)
Reject pocket capacity	100 docs *
Escrow bay capacity	300 docs *
Suspicious Pocket (Art. 6 ECB)	10 docs *
Cassettes configuration	up to 5.000 docs * in 2 cassettes (2.500 each)
LCD touch screen display	7" (16:9 format, 800x480 resolution)
Thermal receipt printer	80 mm
Safe	Steel strong box 6 mm
Lock	Electronic and mechanical locks
Security sensors	"door oper" sensor
User identification	Magnetic stripe reader 1-2-3 and chip card reader
Connection	LAN 100Mbit/sec - 1Gbit/sec

Envelop Deposit Slot  
Internal PC with Win XP embedded  
Different currencies available (Art.6 ECB compliant)

(\* ) performance level with good quality documents

### Performances

Cash Processing (standard)	800 notes/min, 13.5 notes/sec
Cheque Processing (optional)	400 cheques/min, 6,7 cheques/sec (200dpi grayscale; MICR reading)

### Optional Configurations

Cassettes configuration option	up to 10.000 docs * in 4 cassettes (2.500 each)
