DS-75 PRODUCTIVITY MADE EASY

The advanced combination of
productivity, versatility and convenience

WE VALUE YOUR MAIL

DS-75

PRODUCTIVITY MADE EASY

Are you working in an environment where mail matters and response time is key?

With its compact footprint, large loading and unloading capabilities and many enhanced features, usually available only on larger systems, the DS-75 brings you the highest level of convenience, productivity and versatility.

AUTOMATICALLY ADAPTING TO ALL YOUR NEEDS

There's no need for skilled operators thanks to the control panel with a graphical and intuitive touch screen that's able to maximize ease of use. Just select your job and you will be finished before you know it.

Alternatively, see how easy it is to create a new job using our exclusive **load'n Go** intuitive procedure. Simply load your documents and envelopes and then press the start button. The DS-75 will automatically measure the length of all loaded documents as well as the envelope in order to adjust all settings and deliver the appropriate mail item.

SMART SOLUTIONS TO MAXIMIZE EASE OF USE

The DS-75 gives you quick, safe and easy access to all parts of the paper path. You will quickly be up and running again if a break in production occurs.

Furthermore, both the DS-75's exceptional ease of use and its extraordinary quietness are of paramount importance. As a result, it adapts perfectly to any working environment.

HIGH PRODUCTIVITY - ENSURING MAIL QUALITY AND INTEGRITY

FULL FLEXIBILITY - CREATING BUSINESS OPPORTUNITIES

FOR ANY ENVIRONMENT - EVERY USER WILL LOVE IT

EASY TO USE - SAVING VALUABLE TIME

PRODUCTIVITY MADE EASY

The high capacity vertical stacker will reduce incidences of unloading, thus enabling other tasks to be done in the meantime. It requires less handling and makes it possible to unload up to 500 envelopes every 8 minutes while running at maximum speed.

With its large **powerFold** capacity the DS-75 supports up to 10 sheets in a single envelope. All sheets are folded together and not separately. Besides being faster, this also ensures a professional looking mail item and reduces the risk of jams.

SMART SOLUTIONS TO MAXIMIZE CAPACITY

With its 725-sheet capacity, combined with high processing speed for multiple documents, the optional high capacity sheet feeder is the perfect match for running multi-page applications where each recipient receives a different number of pages.

Furthermore, all optional feeders have been specially designed to feed a wide variety of paper types, including coated material and even small booklets. With its large loading capacity, the BRE's maxiFeeder contributes toward reducing downtime, saving your time and maximizing productivity.

HIGH PRODUCTIVITY - ENSURING MAIL QUALITY AND INTEGRITY

FULL FLEXIBILITY - CREATING BUSINESS OPPORTUNITIES

EASY TO USE - SAVING VALUABLE TIME

SEVERAL CONFIGURATIONS FOR A WIDE VARIETY OF MAIL ITEMS

By offering several feeder configurations, the DS-75 allows you to design and deliver attractive messages, making a major contribution toward efficient direct mail campaigns.

Its flexibility is essential for delivering a truly professional mail set (with all documents folded together) every time. It also ensures perfect presentation and reduces the risk of jams. Last but not least, it guarantees the integrity of your mail.

SMART SOLUTIONS TO MAXIMIZE FLEXIBILITY

The exclusive **flexFeed** feeders enable you to process any document size or type. This provides full flexibility in combination with the unique semi-automatic envelope separation mechanism for feeding a wide variety of envelope types. You can use practically any size and type of material to address your prospective and current customers efficiently.

As a result, the DS-75 will make a key contribution toward enlarging your market and business opportunities by offering unlimited possibilities for transactional and direct mail applications.

CUSTOMIZING YOUR DS-75 TO YOUR NEEDS IS SIMPLY CHOOSING THE RIGHT CONFIGURATION:

 <p>DS-75 CONFIGURATION 1</p> <ul style="list-style-type: none"> • 2 standard feeders • 1 expert or special feeder • envelope catch tray 	 <p>DS-75 CONFIGURATION 2</p> <ul style="list-style-type: none"> • 2 standard feeders • 1 expert or special feeder • high capacity vertical stacker 	 <p>DS-75 CONFIGURATION 3</p> <ul style="list-style-type: none"> • 1 high capacity feeder • 1 expert or special feeder • high capacity vertical stacker 	 <p>DS-75 CONFIGURATION 4</p> <ul style="list-style-type: none"> • 1 high capacity feeder • 1 maxiFeeder • high capacity vertical stacker

BARCODE MAIL MANAGER: PERSONALIZING MAIL MADE EASY

Not only does the barcode mail manager offer a fast and safe way of processing personalized mail, it also ensures perfect presentation. It enables you to greatly improve direct marketing activities and thus customer relations. It also gives you the satisfaction of knowing that you can send more for less while easily optimizing postal rates.

IMPROVE COMMUNICATION IMPACT WHILE REDUCING COSTS

Neopost's PrintMachine document software opens up a whole new world of mail creation possibilities. The DS-75's automatic file sorting and merging capabilities will optimize costs per recipient. Moreover, the PrintMachine document software helps you to add OMR or BCR marks to process jobs with variable page sets per recipient.

<p>Recipient A</p>  <p>2 page invoice + enclosure 'London'</p>	<p>Recipient B</p>  <p>1 page invoice</p>	<p>Recipient C</p>  <p>4 page invoice + enclosure 'Paris'</p>

THE SOLUTION FOR MULTIPLE PAGES AND VARIOUS INSERTS

The DS-75 has an innovative and very intuitive solution for processing documents with varying pages and inserts. Simply select a grouping criterion, such as the invoice number, and you can collate multiple pages for the same recipient. You can even define different additional inserts for each group of recipients.

This unique software solution enables you to design direct mail applications in only a few minutes.

TOTAL MAIL FLOW OPTIMIZATION

The Neopost **insert'n Mail** solution allows you to automate your total mail flow by connecting the DS-75 to a Neopost mailing system. Now you can reduce downtime while processing all mail in one run.

FEATURES & BENEFITS

OPERATIONAL EFFICIENCY

Speed	Up to 3 600/hour
load'n Go automatic setting	Yes
flexFeed multi-format feeder	Yes
Multiple sheet feeding	Yes
Cascade from all feeder	Yes
Number of feeders	Up to 3 feeders
powerFold folding capacity	Yes (up to 10 sheets 20 lb)
Job memory	25
Manual feed	Yes
Document feeder capacity	325 sheets 20 lb
High capacity document feeder 725 sheets 20 lb	Optional
Envelope feeder capacity	325
High capacity vertical stacker up to 500 envelopes	Optional
Fold types	Letter, zigzag, single, double parallel, no fold
Different exits	Optional catch tray, side exits
