FULL MODULARITY - ABLE TO KEEP UP WITH YOUR NEEDS

FOR ANY ENVIRONMENT - EVERY USER WILL LOVE IT

COST EFFECTIVE - TODAY AND INTO THE FUTURE

DAILY MAIL INSERTION

FULL CONTENT CONTROL AND SECURITY YOU CAN RELY ON

Thanks to its exclusive scanning device, the DS-200 can read any type of coding such as OMR 1 and 2 tracks, 1D barcodes and 2D datamatrix. Furthermore, the code can be printed anywhere on the document. This unique feature provides full flexibility to fullfill any layout requirement.

It provides the perfect basis for a complete, detailed and accurate report of your mail production - the DS-200 can deliver a full production report, including a record of each scanned document.

To securely process personalised mail runs and those with a varying volume of documents per set, the DS-200 includes several automatic features to ensure that every recipient receives precisely the right mail piece.

- Reading of sequencing marks allows you to control printing accuracy and select inserts based on customer profiles.
- Optional Integrity Checking Software ensures 100% accurate mail processing.

DS-200
THE NEW STANDARD IN MAIL PRODUCTION

AUTOMATE YOUR DOCUMENT PROCESSING

Neopost's Output Management Software (OMS-100) will get the best out of each and every of your documents.

- Automatically add Barcode or Datamatrix at the right place to drive your folder inserter.
- Remove your old OMR marks, giving more value to your document.
- Select inserts from multiple trays.
- Guarantee your mail integrity with secure control marks.
- Split your print file based on number of pages.

ADAPT YOUR MODULAR SYSTEM TO YOUR NEEDS

The modular design, from 1 to 11 feeders, of the DS-200 gives you peace of mind when purchasing a system that your future needs and job requests will be fulfilled.

- Simply add the right module at the right time - as your company grows.

- Multiple function options allow you to take on more job orders, further optimizing your productivity.

- A modular system assures that your equipment investment is cost-effective today and into the future.

Weigth	337kg

DS-200
THE NEW STANDARD IN MAIL PRODUCTION

The highly productive mail operating system that inserts an unprecedented variety of mail

WE VALUE YOUR MAIL

neopost

DS-200
THE NEW STANDARD IN MAIL PRODUCTION

There's no doubt about it: the ability to guarantee your mail production is essential for your business.

The inserter is one of the most important elements in your mail flow. It needs to be easy to operate, highly productive and flexible. Neopost's DS-200 has set new standards in all these aspects.

CASCADE FEEDING FOR CONTINIOUS RUN

LOADING ON THE FLY PREFENTS STOPPAGE

FLEXIBLE IN A WIDE VARIETY OF INSERTS

INSERTING UP TO 6MM THICK BOOKLETS

neopost

FEEDER SWAP
Continuous operation is achieved by cascade feeding. If one feeder runs empty, another one takes over, giving a total capacity of 2,000 sheets.

AUTO DIVERTION
To avoid stoppage and maximize productivity, the divert bin receives oversized sets or special documents, while the system keeps running.

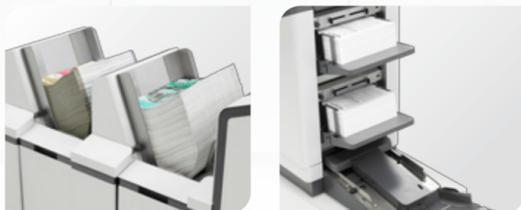

STEP-BY-STEP GUIDE TO FULFIL ALL YOUR NEEDS WITH EASE
The DS-200's 15" graphical touch screen maximises ease-of-use. Simply select your job and you'll be up and running in no time. Even changing from one job to a completely different takes only a few minutes. The system adapts itself to all the settings programmed in the memory for the job you select.

But there is more to ease–of-use. And the DS-200 provides it every step of the way throughout your mail processing. From efficient paper and feeders loading to on screen error location.

The DS-200 guarantees optimum accessibility and sophisticated ergonomics. It provides quick, safe and easy access to the paper path throughout the entire system, so you'll soon be back in business if there's a break in production. Handling and processing your mail has never been so easy.

- Intuitive document loading eliminates guesswork.
- Day-to-day mail can be processed via the standard, dedicated manual-feed tray.

HIGHLY PRODUCTIVE FOR THE WIDEST VARIETY OF MAIL
In addition to its amazing ease-of-use as a production inserter, the DS-200 also provides high speed performance. It can process up to 4800 envelopes per hour. Because the DS-200 can process Landscape C4 envelopes, inserting up to 50 pages per envelope is now easier and more reliable.

Plus, the high loading capacity of the DS-200 is a perfect match for its high speed. The system design reduces downtime, enabling you to work on other tasks at the same time – and maximising your productivity.

Every part on the DS-200 is designed to perform for you. From the high capacity feeders and feeder swap to the automatic sheet diverter and the high capacity envelope output conveyor, the DS-200 delivers the high speed and perfect practicality you need.

- High-capacity feeders, fast accumulation, and on-the-fly envelope loading - all designed to save you time.
- Online services provide even better system uptime.

INSERT UP TO 50 PAGES OR 6MM BOOKLETS
With its high capacity sheet feeders combined with premium processing speed for multiple documents, the DS-200 is the perfect solution for the widest scope of mail applications. It can process coated and glossy booklets or CDs into all regular envelopes ranging from C5/6 to C4. Plus it can feed documents both portrait or landscape.

Add this to the fact that the DS-200 is able to memorise an unlimited number of jobs to reduce set-up time and you can begin to imagine the unprecedented possibilities of the DS-200.

The DS-200 has been designed to run different jobs every day at the touch of a screen. Thanks to its intuitive handling, processing a large range important mail batches or multiple and divergent documents, has never been as easy.

- On-the-fly document loading from simple letters to 6mm thick glossy booklets.
- Mechanical adjustments are automatically carried out after a new job from the unlimited envelope and document library has been selected.
